#### **Proposed Sewer Rate Increases**

City of Springfield

Department of Environmental Services

August 30, 2016

# Award Winning Program For Personnel

Jim Burks - Laboratory Supervisor at the SWTP

**Chair MWEA Laboratory Practices Committee** 

**MWEA Executive Board** 

**Member of the American Chemical Society** 

Ronnie Box - Operations Supervisor at the SWTP

Vice Chair of the MWEA Operators Committee

**Quarter Century Operator Award** 

2014 MWEA Operator or the Year Award

**MWEA** is Missouri Water Environment Association

# Award Winning Program For Personnel

Bruce Hinkston – Operations Supervisor for the NWTP 2015 MWEA Operator of the Year Award

**Stephanie Gott - Plant Biologist** 

Member of the MWEA Laboratory Practices Committee 2014 MWEA Laboratory Analyst of the Year

#### **Kevin Cline**

Member of the MWEA Laboratory Practices Committee 2015 MWEA Laboratory Analyst of the Year

#### **Award Winning Program For Facilities**

**South West Treatment Plant (SWTP)** 

**NACWA for Wilsons Creek Conservation Zone** 

2015 NACWA Peak Performance Award

2013 Plant of the Year Award for a Large Facility

2013 Biosolids Management Award

North West Treatment Plant (NWTP)

2015 NACWA Peak Performance Award

**Collection System** 

NACWA for Private Inflow and Infiltration Program

ACEC - Private Inflow and Infiltration Program for Engineering Excellence

NACWA is the National Association of Clean Water Agencies ACEC is the American Council of Engineering Companies

## Permit Limit Comparison Not a level Playing Field

|                     | Springfield | Jefferson<br>City | St. Louis | Kansas<br>City | Columbia |
|---------------------|-------------|-------------------|-----------|----------------|----------|
| BOD Weekly Avg.     | 15          | 45                | 40        | 60             | 45       |
| BOD Monthly Avg.    | 10          | 30                | 25        | 40             | 30       |

| Ammonia             | 1.3         | No Limit          | No Limit  | 45.1           | No Limit |
| E-Coli Weekly Avg.  | 126         | 1030              | 1030      | 1030           | No Limit |
| E-Coli Monthly Avg. | 126         | 206               | 206       | 206            | No Limit |

#### 2015 to 2025 Springfield's Plan

#### **Outcomes**

- System overflow reduction
- Continue removing rainwater from the system
- Continue to gather data and evaluate the system to determine the appropriate capacity improvements
- Ensures WWTP's continue production of high-quality effluent and meet permit requirements
- Funding for MS4 compliance
- Approach a level of funding are consistent with Integrated Planning Process and timing

#### **Take Away Points**

Funding Springfield's Plan is necessary to comply with the Clean Water Act

These improvements are necessary to protect water quality in Southwest Missouri

Our Plan will stabilize user fees for the next 10 years

Our Plan will address Springfield's aging infrastructure

# Springfield's Plan Includes Three Phases

Phase 1 – Foundation projects (2016-2020).

Phase 2 – Advanced Action projects (2021-2025).

Phase 3 – Beyond (2025).

### **Foundation Projects**

| 2016 to 2020 Foundation Projects        |              |  |  |  |
|---|--------------|--|--|--|
| Description                             | Cost (\$)    |  |  |  |
| Pipe Renewal                            | \$9,500,000  |  |  |  |
| Private I/I Abatement                   | \$10,800,000 |  |  |  |
| Digester Improvements                   | \$35,800,000 |  |  |  |
| MS4 Compliance                          | \$4,900,000  |  |  |  |
| Resource and Maintenance Needs          | \$9,000,000  |  |  |  |
| Program Costs                           | \$3,700,000  |  |  |  |
| Systemwide Flow Monitoring/Model Update | \$1,300,000  |  |  |  |
| Total                                   | \$75,000,000 |  |  |  |

### **Advanced Action Projects**

| 2021 to 2025 Advanced Action Projects |               |  |  |  |
|---------------------------------------|---------------|--|--|--|
| Description                           | Cost (\$)     |  |  |  |
| Pipe Renewal                          | \$49,600,000  |  |  |  |
| Private I/I Abatement                 | \$5,000,000   |  |  |  |
| Priority SSO Projects                 | \$20,100,000  |  |  |  |
| Treatment Equipment Renewal           | \$23,100,000  |  |  |  |
| MS4 Compliance                        | \$9,500,000   |  |  |  |
| Resource and Maintenance Needs        | \$11,400,000  |  |  |  |
| Program Costs                         | \$4,700,000   |  |  |  |
| LTCOP Reevaluation                    | \$1,600,000   |  |  |  |
| Total                                 | \$125,000,000 |  |  |  |

#### **Proposed New Rates for Next 3 Years**

| Fiscal<br>Year   | 2018 | 2019 | 2020 |
|------------------|------|------|------|
| Rate<br>Increase | 5%   | 6%   | 6%   |

#### 2014- Projected Rates for Next 3 Years

| Fiscal<br>Year   | 2018 | 2019 | 2020 |
|------------------|------|------|------|
| Rate<br>Increase | 8.5% | 9%   | 9%   |

### **Sustainable Energy Projects**

| Digester Improvements – Annual Savings (Starting Const)    | \$738,000 |
|--|-----------|
| Replace Motors with High Efficiency Motors – Annual Saving | \$61,000  |
| Downsize Cryo Plant Air Compressor – Annual Savings        | \$70,000  |
| Optimize Oxygen Production – Annual Savings                | \$41,000  |
| Rotary Drum Thickener – Annual Savings                     | \$16,000  |
| Lighting Upgrades- Annual Savings                          | \$5,000   |
| Programmable Thermostats – Annual Savings                  | \$8,300   |
| Boiler Replacement – Annual Savings                        | \$1,200   |
| Add Weather Barriers                                       | \$1,200   |
| Replace Pickups with Golf Carts – Annual Savings           | \$1,000   |

#### **Proposed New Industrial Fees for BOD**

| Fiscal<br>Year   | 2017       | 2018       | 2019       | 2020       |
|------------------|------------|------------|------------|------------|
| Rate<br>Increase | \$0.407/lb | \$0.300/lb | \$0.300/lb | \$0.300/lb |

#### 2014 - Projected Industrial Fees for BOD

| Fiscal<br>Year   | 2017       | 2018       | 2019       | 2020       |
|------------------|------------|------------|------------|------------|
| Rate<br>Increase | \$0.461/lb | \$0.500/lb | \$0.545/lb | \$0.594/lb |

#### **Proposed New Industrial Fees for TSS**

| Fiscal<br>Year   | 2017       | 2018       | 2019       | 2020       |
|------------------|------------|------------|------------|------------|
| Rate<br>Increase | \$0.124/lb | \$0.124/lb | \$0.124/lb | \$0.126/lb |

#### 2014 - Projected Industrial Fees for TSS

| Fiscal<br>Year   | 2017       | 2018       | 2019       | 2020       |
|------------------|------------|------------|------------|------------|
| Rate<br>Increase | \$0.128/lb | \$0.139/lb | \$0.151/lb | \$0.165/lb |

#### **Inflow Reduction Successes**

| Peak Flow Reduction |                          |                         |  |  |
|---------------------|--------------------------|-------------------------|--|--|
| Sub-Basin           | % Peak Flow<br>Reduction | I/I Reduction<br>Method |  |  |
| FC13                | 39%                      | Private                 |  |  |
| JC15                | 58%                      | Private                 |  |  |
| PRo7                | 28%                      | Private                 |  |  |
| PR10                | 17%                      | Public                  |  |  |
| JC23                | 30%                      | Public                  |  |  |
| JC15                | 68%                      | Combination             |  |  |
| JC30                | 43%                      | Combination             |  |  |

# Comparison of Consent Decrees and Rates in Missouri's 3 largest Cities

|                 | Kansas City | St. Louis | Springfield |
|-----------------|-------------|-----------|-------------|
| Consent Decrees | \$4.5B      | \$4.7B    | \$200M      |
|                 | Rat         | tes       |             |
| FY 16           | \$53.35     | \$40.72   | \$28.11     |
| FY 17           | \$60.28     | \$44.59   | \$28.94     |
| FY 18           | \$68.11     | \$49.31   | \$30.64     |
| FY 19           | \$79.96     | \$54.63   | \$32.36     |
| FY 20           | \$86.96     | \$60.44   | \$34.20     |

#### **Sewer Rate Comparisons**

|                | Inside the City | Outside the City |
|----------------|-----------------|------------------|
| Lebanon        | \$20.37         | \$20.37          |
| Columbia       | \$24.63         | \$50.65          |
| Ozark          | \$28.48         | \$42.73          |
| Springfield    | \$28.94         | \$28.94          |
| Joplin         | \$29.90         | \$38.90          |
| Jefferson City | \$30.04         | \$51.48          |
| Nixa           | \$30.15         | \$39.60          |
| Republic       | \$44.23         | \$66.36          |
| Battlefield    | \$44.70         | \$44.70          |
| Willard        | \$47.88         | \$55.08          |
| Strafford      | \$57.27         | \$65.54          |
| St. Joseph     | \$63.28         | \$146.66         |
|                |                 |                  |

### **Typical Monthly Bills**

| Usage           |               | 2017     | 2018     | 2019     | 2020     |  |  |
|-----------------|---------------|----------|----------|----------|----------|--|--|
| Residential     |               |          |          |          |          |  |  |
| Small User      | 3 ccf         | \$23.60  | \$24.85  | \$25.73  | \$27.00  |  |  |
| Avg. User       | 6 ccf         | \$28.94  | \$30.64  | \$32.36  | \$34.20  |  |  |
| Large User      | <b>10</b> CCF | \$36.06  | \$38.72  | \$41.20  | \$43.80  |  |  |
|                 |               |          |          |          |          |  |  |
| Non-Residential |               |          |          |          |          |  |  |
| Small User      | <b>40</b> ccf | \$89.46  | \$99.32  | \$107.50 | \$115.80 |  |  |
| Med. User       | 60 ccf        | \$125.06 | \$139.72 | \$151.70 | \$163.80 |  |  |
| Large User      | 100 ccf       | \$196.26 | \$220.52 | \$240.10 | \$259.80 |  |  |
